

FLY-SHIELD *Solo*

This professional insect control unit has been designed, developed and manufactured in the UK, by one of Europe's largest insect control specialists:

Insect-a-clear

The *Solo* has been specifically designed for discreet, stylish and effective insect control and is ideally suited not only for domestic use, but also for restaurants, reception areas, coffee shops or sandwich bars, to name but a few.

The main body of the *Solo* is made from corrosion resistant, anodized aluminium, which not only means it is simple to clean but also makes it light and easily portable, if so desired.

By combining its powerful 20w, energy saving ultra violet lamp with its large unobstructed glue board, Insect-a-clear have come up with a truly effective unit.

- Stylish contemporary design
- Discreet glue-board for trapping and retaining flying insects
- Suitable for free standing or wall mounting if desired
- Aluminium construction for excellent corrosion resistance
- Attracts flying insects within an area of 90m²
- High attraction energy saver lamp – no separate starter required
- Designed & manufactured in the UK. CE approved and formally tested to BSEN 60598-2-4/1998 & 60598-1:2004
